Proposed Boundary Changes for Truesdell Education Campus 800 Ingraham St. NW

Truesdell Education Campus is the public school of right for all school-age children living within the attendance zone. Families can also apply to charter schools or out of boundary to DCPS schools through a lottery process.

SY 2013-14

Enrollment: 480 In-Boundary: 87% Bldg Capacity: 450 Bldg Utilization: 107%

# of grade appropriate public school students [PK3-5th] living within the <i>current</i> boundary (SY13-14)	741
# of grade appropriate public school students [PK3-5th] living in <i>proposed</i> attendance zone (SY13-14)	930
Boundary participation (% public school students [PK3-5th] living in boundary and attending) (SY13-14)	31%
Projected 4-10 year old child population change 2014-2020, Neighborhood Cluster 18	67%

Rationale for Proposed Boundary Changes: Truesdell's attendance zone expands to the east to absorb part of the former Rudolph zone and to the south to relieve pressure from Barnard. West absorbs a portion of the boundary to the west. Truesdell is over capacity but its low participation rate mitigates overcrowding and the school is expected to increase capacity due to proposed grade configuration changes.

Proposed Geographic Destination Feeder Schools (Feeder Pathway): Anyone living in the proposed new boundary for Truesdell EC is zoned for and has rights to attend MacFarland MS and Roosevelt HS. MacFarland MS is slated to re-open no earlier than SY15-16. Until MacFarland MS re-opens, Truesdell will remain an education campus serving middle grades and families will maintain their current geographic rights to MS based on home address. Proposed feeder pattern changes were made to better align school building capacity with population and with feeder pattern participation rates and to support racial/ethnic and socio-economic diversity, where possible.

Proposed Programmatic Destination School (Feeder Pathway): No programmatic feeder pattern proposed.
